P: 888.403.6026
F: 724.776.1007

SERVICES OFFERED:

- **OSHA VPP (Voluntary Protection Program) application assistance:**
Set your company's occupational safety and health goals high! We can help you achieve Star worksite status through OSHA's Voluntary Protection Program (VPP). No OSHA fines for planned inspections!
- **Workplace occupational safety and health hazard assessments:**
Our consultants are not only trained to recognize workplace safety and health hazards, but also can offer expertise in improving the efficiency of the workplace.
- **Custom-written occupational safety and health programs:**
Our consultants conduct health and safety audits. The information that we gather from these audits provides a good foundation to provide custom safety programs for our clients.
- **On-site OSHA training conducted by highly experienced trainers:**
Power point safety training presentations are tailored for our client's specific needs to meet OSHA requirements.
- **OSHA representation:** If your company is cited by OSHA, we can offer immediate assistance with the OSHA abatement process and provide representation at OSHA informal conferences.
- **Construction Job-Safety-Analysis (JSA's):** Who is supervising the supervisors? We not only train and instruct workers on-site, but also middle and executive management on the importance of recognizing and correcting job hazards.
- **ISNetWorld, PEC Premier, or PICS Assistance:** We can help you bring your company's safety and health program up to their standards by providing written programs, filling in gaps in your current programs, and providing safety and health training.
- **Implementation of state programs:** We can assist our clients with the implementation and management of state programs that may result in significant Worker's Compensation Premium savings.
- **Phone support:** Help is only a toll-free phone call away. If inspected by OSHA, our clients may call us for guidance.

SAFETY PAYS! Here is the secret that most fortune 500 companies already know: safety pays! The National Safety Council recently reported that for every \$1 invested in safety, the company can realize a \$3 to \$6 return on their investment. The best way to manage workers comp claims is to prevent the injury from occurring in the first place! Please call us today (888.403.6026) to arrange a confidential, cost free safety evaluation. Our goal is to help make your workers safer, and your bottom line healthier!
