# Nationwide Services

## Empower Your Team with Professional Training

Certified Safety Professionals, including retired OSHA officials, deliver up to date and effective training across hundreds of topics that are in tune with your team's schedule, work environment, and meet English/Spanish-language requirements.

### ONSITE SAFETY & HEALTH TRAINING

Is your team concentrated at a specific location? Choose onsite group training to have a certified trainer come onsite to conduct a group class.

### ONLINE OSHA TRAINING CENTER

Is finding time to train a challenge? Choose our Online OSHA Training Center for web-based instruction anytime, anywhere.

### LIVE INSTRUCTED ONLINE TRAINING

Just need quick training for a simple topic? Choose live remote training for a certified trainer to conduct an interactive remote class.

## Handle Hazards and OSHA Compliance with Ease

Thousands of Business Owners, HR Executives, Project Leaders, and Safety Directors confidently lead their teams by leveraging our 20 years of experience to create a safe and OSHA compliant company.

### Build and Maintain Your Safety Program

Our team will custom write your safety and health program based on your specific industry and hazard exposure to comply with the applicable OSHA standards.

### Have Professional Representation for OSHA Inspections

OSHA inspects over 30,000 business each year! Just missing records can lead to a citation. We'll guide the OSHA abatement process and represent you at OSHA informal conferences.

### Identify Safety Hazards

Lancaster Safety will conduct a workplace inspection to find even the most hidden hazards at your worksite across your equipment, environment, and processes.

### Get Prequalified and Get the Job

We'll get your written programs, training, and other requirements up to the standards of: \*ISNetworld®, Veriforce™, Avetta™ (formerly PICS) and ComplyWorks.

\*ISNetworld® is a registered trademark of the ISN Software Corporation
